

# ROLLING TOWER

[www.totalaccesssolutions.com.au](http://www.totalaccesssolutions.com.au)

## SINGLE WIDTH 5100

**If there is little room for placing a scaffold, Altrex 5100 rolling tower offers an excellent solution with its narrow 75cm frames.**

- Length 2.45m
- 6.2 m maximum platform height for interior and exterior work
- The maximum load per platform is 225kg and 225 per bay
- Double locking heavy duty caster; the brake not only stops the wheel from spinning but also from swivelling
- Spring loaded caster clips; situated at the top of the tread on each adjustable castor, this clip will secure the castor to the frame and will not allow it to slip out when the scaffold is lifted
- Robust modular aluminium toe boards for longer life
- All platforms are fitted with a wind lock to ensure the platform is not detached from the scaffold in heavy winds
- All frames are fitted with frame locking pins for extra stability, securing frames together in heavy winds and to make it easier for the person erecting the scaffold
- 280mm rung spacing on frames; this increases strength of the frames and allows more versatility in platform height by placing the platform on the desired frame rung

| PLATFORM HEIGHT (M)        | 2.2 | 3.2 | 4.2 | 5.2 | 6.2 |
|----------------------------|-----|-----|-----|-----|-----|
| 1m frame 75028-4           | 0   | 2   | 0   | 2   | 0   |
| 2m frame 75028-7           | 2   | 2   | 4   | 4   | 6   |
| Diagonal brace 245         | 2   | 4   | 4   | 6   | 6   |
| Horizontal brace 245       | 6   | 6   | 6   | 10  | 10  |
| Ladder hatch deck 245      | 1   | 1   | 1   | 2   | 2   |
| Clip-in ladder 3m          | 1   | 0   | 0   | 1   | 1   |
| Clip-in ladder 4m          | 0   | 1   | 0   | 1   | 0   |
| Clip-in ladder 5m          | 0   | 0   | 1   | 0   | 1   |
| Castors wheel              | 4   | 4   | 4   | 4   | 4   |
| Toeboard set (0.75 - 2.45) | 1   | 1   | 1   | 1   | 1   |
| Guardrail frame 75500-2    | 2   | 2   | 2   | 2   | 2   |
| Triangular stabiliser      | 4   | 4   | 4   | 4   | 4   |
