INTRODUCING OUR COMPANY

We are a multi award winning business with our Managing Director having more than 30 years' experience in the scaffolding, construction and access industry and we know what our clients expect from a supplier.

We are experts and dominate in high end residential, engineered and commercial projects and service greater Sydney and the Wollongong region.

When you award a contract you need to be able to trust your supplier, and know that they will deliver on time, on budget, and with safety as a priority. Quite simply, that's what Total Access Solutions can do for you. Whatever your scaffolding needs, and it doesn't matter how complex, or which type of scaffold, we have the solution covered.

We are an independent supplier with a total commitment to our clients. We do this by providing the most appropriate solution together with the best product at the most competitive price possible. This, together with a responsible after sales service and a strong focus on developing long-term relationships with our clients, this sets us apart from our competitors.
